

meet
'LIFE'S BROUGHT CLOSER'

displaying the name of my app

this is my login page which requires users name and password,
also it provides two option whether you are a new member or u forgot your password.
clicking on the dedicated links will lead u to the following pages

let's join

- □ ×

full name

phone no.

mail

age

region

gender

terms and services

18+

if you are a new member that's the registration page which requires the following information with "term and condition column" and age confirmation column too.

if you do not remember your credentials this page will require the mail that you were registered with and the OTP that would be send on your mail

LET'S MEET AT

activity your looking for

radius

its the main page i'l describe each activity one by one

- 1> the profile on the top left corner will allow the user to edit his/her information
- 2> the bar in the middle with the text "activity your looking for" will provide a scroll bar with number of activities such as :- sports, concerts, matches, restaurants, cultural events etc. the user can choose whatever event excites him/her
- 3> the radius bar beneath allows the user to select the area within which he/she wants to discover people and join plan with them
- 4> one can create groups too
- 5> the icons at the bottom allows the user to text, add friends, post , join communities and get event updates.

requests

yo last night was so much fun
i hope i can see u next wed too :}

ukw sara almost threw herself
into the pool lmaooo

sorry for the line, i tried my best to align it but wasn't able to do because of some platform error, il
make sure it would be perfect when i configure the app in real time 😊
sorry for the line allignation
